Subject: Advanced Java (01CT1623)		Aim: WAP that will take firstName, surName, email from user. Store that data into DB and display data from DB. (JDBC)	
Experiment No:- 02	Date:- 30-01-2025	Enrollment No:- 92200133003	

Objective:- WAP that will take firstName, surName, email from user. Store that data into DB and display data from DB. (JDBC)

Code :-

```
package org.example;

import java.sql.*;
import java.util.Scanner;

public class Main {

    public static void Insert(Statement statement) {
        Scanner scanner = new Scanner(System.in);
        int no_of_rows;

        System.out.print("Enter The Number of Rows You Have to Insert :- ");
        no_of_rows = scanner.nextInt();
        scanner.nextLine(); // Consume the newline character

        // Define the attributes (column names)
        String[] attribute = {"Username", "Email", "Enrollment", "Department", "Password"};
        String[][] data = new String[no_of_rows][5]; // Array to store user input

        // Taking user input
        for (int i = 0; i < no_of_rows; i++) {
            System.out.println("Enter the Details for User - " + (i + 1));
            for (int j = 0; j < 5; j++) {
                System.out.print("Enter the " + attribute[j] + " :- ");
                data[i][j] = scanner.nextLine();
            }
        }

        System.out.println("_____");

        // Construct SQL INSERT query
        StringBuilder insertQuery = new StringBuilder("INSERT INTO `student`(`username`, `email`, `enrollment`, `department`, `password`) VALUES ");

        for (int i = 0; i < no_of_rows; i++) {
            insertQuery.append("(")
                .append(data[i][0]).append(", ") // Username
                .append(data[i][1]).append(", ") // Email
                .append(data[i][2]).append(", ") // Enrollment
                .append(data[i][3]).append(", ") // Department
                .append(data[i][4]).append(")"); // Password

            if (i < no_of_rows - 1) {
                insertQuery.append(", "); // Append a comma for multiple inserts
            }
        }

        insertQuery.append(";");
    }
}
```
